meloxic®
Pomade

GREATER ABSORPTION FOR FASTER AND HIGHER EFFECTS

- Stimulates and favors the milk production.
- Coadjuvant in equine laminitis.
- Antipruritic (to relieve and reduce itching).
- Before work or exercise for rapid body heating.
- After exercise to stimulate muscle recovery.
- Does not require hair removal, just a vigorous massage on the treated area.

How to use:

Apply a generous amount in the affected area, and perform vigorous massages. Make this two to three times a day until the inflammation and pain disappear.
